TO ALL WHOM IT MAY CONCERN:

Id est Everybody. For two weeks or more the attention citizens , of San Marcon has been railed to the advisability of establishing a Building and Loan Besociation in our midst. In order to arrive at a better and fuller understanding of the proposed enterprise, a meeting of citizens was called to convene at the Court house Nov. 27th at p. m. In response to the call quite a num ber of prominent business and professional men met, and after a clear presentation and fair discussion of the subject by Mr. J.V. Hutchina, Judge W. D. Wood, W. G. Jones and others, a committee was appointed consisting of Mesers. Geo. T. McGebee, W. G. Jones, J. V. Hutchins, Sterling Fisher, W. D. Wood and E. Northeraft, to draft Constitution and By-Laws to be submi ted to a convention of citizens at the Court

House Monday, Dec. 15th, 1884. This much har already been accomp and it only remains for the people to take hold, perfect an organization and petition

It will be remembered that such an enterprise as is proposed is not an untried one Building and Loan Associations have been established in a large number of cities and towns throughout the country, and their history is, that wherever properly managed they have proven a great success. ed on business principles, they have not faied to enhance the material prosperity of every community where they have been organized. We are then embarking upon no unknown sea, but can look to San Antonio, Austin, Palestine, etc. and see what they have done and are doing for the growth of these cities. Every class of citizen is benefited

by such associations. The working man is enabled to build his family a house by the aid of the association, which perhaps he would never have done were he to wait un til he had saved a sufficient amount to build and pay for at once The property-owner finds ready sale for his unimproved lots The man of moderate means and small salary finds in the association a savings bank, paying him good interest on his small monthly deposit. The fact is every person in the community is directly or in-

lirectly benefited. In order to understand more fully the working of the Building end Loan Association, let us suppose that we organize with 200 shares of \$300 each, which amounts to \$60,000. One share at \$5 per month is \$60 per year and at the end of five years \$300 a paid up share. 200 shares at \$5 per month r \$60 per year per share would not per

Now estimating the expenses of the as sociation at \$1,000 per year, it would leave for the use of the association per year, eleven hundred dollars. This would enable the association to build per year eleven houses at a cost of one thousand dollars each, or twenty houses at a cost of five hundred dollars each.

The interest on 11,000 at 12 per cent, per annum would amount to three-hundred and farm was adopted, damages assessed in two
cases, and Z. P. Bugg appointed overseer.
W. W. Haupt was allowed \$5 for survey. rould receive as his share of the interest six dollars and sixty cents and for the five years on his share of three hundred dollars, 99 dollars interest. At the end of five years Report of J. A. Wren and others review. ers of San Marcos and Wimberly road, con-ninety-nine dollars, and at the end of six years four hundred and thirty-five dollars. Suppose a share holder desires to build

a house that will cost six hundred dollars. He borrows the money from the association, say at 12 per cent. interest per annum, payable in six annual installments : 'The first installment would be one hundred and tweltwelve dollars; the second, one hundred and twenty-four dollars; third, one hundred aud thirty-six dollars; fourth, one hundred and forty-eight dollars; fifth, one hundred and sixty dollars; sixth, one hundred and seventwo dollars. Total cost of house at the end of six years eight hundred and fifty-two of six years eight hundred and hity-two dollars. At the end of six years he has his share of stock, worth four hundred dols and sixty six cents, total one thousand and thirty-eight dollars and sixty cents, and he has paid out in cash in six years a total of eleven hundred and fifty-two dollars and sixty cents. So he has his house and stock at the end of six years, and is out only an excess of one hundred and thirty-four cents above the value of his hundred and thirty-four cents above the value of his in dollars and thirty-four cents above the value of his his hundred and thirty-four cents above the value of his his hundred and thirty-four cents above the value of his his hundred and thirty-four cents above the value of his his hundred and thirty-four cents above the value of his his hundred and thirty-four cents above the value of his his hundred and thirty-four cents above the value of his his hundred and thirty-four cents above the value of his his hundred and thirty-four cents above the value of his his hundred and thirty-four cents above the value of his hundred and thirty-four cents above the value of his hundred and thirty-four cents above the value of his hundred and thirty-four cents above the value of his hundred and thirty-four cents above the value of his hundred and thirty-four cents above the value of his hundred and thirty-four cents are the Methodist church. We attended services at the Christian church on Sunday last. The pastor, Elder Pritchet, preached. His sermon evidenced sound orthodoxy of the old type as respects the future punishment of the impenitently wicked.

We failed to hear Rev. Mr. Harris on last We failed to hear Rev. Mr. Harris on last Sunday, but have before us a report of his sermon, taken by Mr. Victor Julian, of this office. It is equivalent to sixteen pages of manuscript. The sermon we find to be an excellent one, on the necessity of man's co-operation with God in all things even with respect to his own salvation, illustrating the folly of seeking to hold him responsible for our errors and transgressions.

We called on our ex-Hoosier fellow citizen, Judge Wood, on Sunday. His new house which was not completed at our last previ-ous call, is now entirely finished and furnishcd, and is spacious comfortable and elegant. The main building is supplemented by dining room, kitchen, bath house, etc., all in the best modern style. Misses Hunt and Horn, the latter the niece of the Judge, the former of his good wife, have their home here, and no doubt find it a happy one, while their bright young faces and lively manners certainly must add much to the pleasure of the worthy owners of the

Happening at the Prescott House on Sunday we unexpectedly found snugly enaconced there as boarders, Mr. and Mrs. Louis McCay, but recently returned from their wedding tour. Mrs. Prescott showed us the wedding presents, which were numerous, handsome and valuable. We cannot particulize in full, but the very handsome set of furniture (purchased by the way, of J. W. Nance & Bro.) was the gift of the bridegroom to his bride, whose other relatives, too, remembered her with gifts, as also mutual friends of the pair, among whom were Mr. and Mrs. Hofheinz, Tom Glover, Byron Smith. Mr. Robbins, etc; and last Happening at the Prescott House on Sun Byron Smith. Mr. Robbins, etc; and last but not least, the popularity of the amiable bride was shown to have extended as far bride was shown to have extended as far west as Laredo by a beautiful dressing case, was exceedingly pleasent to us to see a young couple starting out this agreeably on their voyage of life. Mr. McCay exhibits wisdom beyond his years in thus surrounding the young wife with all manner of pleasant appliances, for many insuperable domestic troubles have their origin in an opposite state of facts at the outset of married life.
